VN 731PC

- USB connection for fast downloading to PC
- Calender search function
- Recording Scenes
- Voice activated recording (VCVA)
- 4GB internal memory / up to 1600 hours recording (LP mode)
- High sound quality: WMA file format and popular mp3 format
- 5 folders for file storage, 200 messages per folder
- Long battery life

The basic but brilliant option

Functionality and performance is offered by the basic VN 731PC model. For beginners the new Simple Mode displays only the essential information in large font and limits the menu options. Normal Mode offers full functionality for more advanced users. The large, omni directional, low noise microphone records sounds from all directions with less noise and reduced breath sound. The recorder is equipped with a built in stand on the back for convenient desktop use to reduce surface noise. Two modes have been added to Scene Select for optimizing recordings of telephone conversations and duplicating cassette tapes.

For those who want the convenience of having their spoken words automatically converted into text, the DNS version for the VN 731PC DNS bundles Dragon Naturally Speaking 12 Recorder Edition speech recognition software to make things easy. Languages supported are EN, FR, IT, DE, ES, NL.

Specifications

Storage Media

Internal / Removable Media	Internal only
Internal memory	2GB

USB functionality

USB Speed	USB 2.0 High Speed
USB Classes	USB Storage class

Display

Display colour	White
Display Size	27.6 x 23.9mm
Display Type	Full Dot Matrix Display (108 x 84 dots)
